*The place of knowledge is
Life's contact-point of Renewal.
When we know Better,
we get Better!*

**SOURCE
INSTITUTE...**
*The Genesis
Option*

Change is a constant feature of a progressive life. A life that is not evolving and progressively upgrading is a dying life. Information personally acquired and wisely applied leads to transformation. The place of knowledge is life's contact-point of renewal. When we know better, we get better. Those who remain unchanged and un-upgraded with time are those who refuse to learn. It is that point of our lives where we stop learning that we start dying. Explorers of the knowledge of living are perpetually renewed into life.

But what knowledge do we pursue? It is no secret that the great bodies of learning in our world don't offer courses on God. We study plant and animal lives in Biology; we have courses in Accounting and Economics; the physical sciences of Physics, Chemistry and Mathematics occupy a great part of our learning attention. But no university has any elaborate study courses on God and His ways.

*A Vital
Information
Gap*

Mankind has accumulated centuries of rigorous learning. Much has been the sum of human mental exertion as we pursue knowledge round the globe. Yet we don't know our world, we don't know ourselves, and most critical of all, we don't know our God, nor His ways.

Is it not possible that the knowledge of our world, so vital to our life here on earth, as well as the knowledge of ourselves as mankind created from an intelligent mind for definite reasons, is it not possible that such knowledge is actually hidden but accessible in our gaining the knowledge of God? May be what we seek in ourselves and in our world is actually found only in our God. This is our Position at SOURCE INSTITUTE.

*The Need
To
Know
God*

History has proven beyond any doubt that we cannot separate God from our lives and have the best of life! Wars, unimaginable destructions, poverty in the midst of plenty, diseases, hate, suspicion among nations, these have been the hallmark of our lives outside of God. With all that the human brain has furnished us in terms of development, life for man is not actually getting better. The nations of the world are bent and breaking under the influence of forces we know little or nothing about.

"...the way of peace they know not" (Isa. 59)

Until we turn to the Maker's Manual, our very existence here on earth will remain a mystery and a burden to us. Until we learn the ways of God, we cannot reach our creation-destiny. Until we turn to actively learn what God has said, we remain stuck, both as nations and as individuals.

***He Began
It All,
He Knows
It All***

“In the beginning God created the heaven and the earth...” (Gen 1)

This is the starting point! This is the core, the solid platform upon which life is built. When life shifts from that base, it plunges into the bottomless pit of existence without purpose!

***“And God said, let us make man in our image, after our likeness,
and let them have dominion...” (Gen. 1)***

No life can be meaningful or successful, no nation can run with purpose without coming to the knowledge of the origin of our being: The God of Genesis 1!
This is the eternal fundamental we seem not to have learnt. This is the information gap that education must fill for it to be truly transforming.

***The
Genesis
Option***

You probably have attended schools before. Possibly you have passed through what we call higher institution. Did you learn God from the classes? Did you learn Genesis? Did your school succeed in integrating your learning with your life-purpose from the

Creator’s perspective?

This is where SOURCE INSTITUTE is different. It is not academic as in secular schools, and it is not ministerial as in Bible School. It does not see your natural life and profession as separate from your Spirit-life, and it does not treat your calling as different from your secular life. SOURCE INSTITUTE is the Genesis Option: one life created by God in purpose and blessed full with creation-potential to fulfill that purpose.

***Mind
Of The
Maker***

The knowledge that gives real meaning to life is knowing the mind of God. This contains for us God’s way, God’s How and Why. Where the Bible is not received in honour, men grope in darkness; outside of God, higher learning only produces lower living!.

Today, in our so-called age of enlightenment, men are becoming more and more like animals. Most of the moral fences that have kept men in the past from mere animal life are down. Moral standards are no longer standing.

Secular Education has long stopped producing great minds, but strange minds. Minds that are unleashing strange waves of crime, violence, terror and decadence upon every facet of our corporate existence.

Life Is Essentially Spiritual

The first three chapters of Genesis, God's manual for man's earth-life, contain for us information on the forces that rule and produce the nature of things here on earth. But Education in the world's concept knows only inanimate forces of nature: Wind, Water, and Fire. The Genesis option sees life from a completely different view. Wind, water, and Fire are but tools. Spirits wield them! Life on Earth is essentially spiritual.

And more, current life on earth is under spiritual siege. Forces are at work to make sure mankind does not have the guarantee of a tomorrow! These forces want mankind to self-destruct. Unfortunately, what we call education in the world has no clue and does not seek any clue to this! Mankind has not been prepared for present day life on earth by its institutions of learning. The ordinaries have no power to face the extra-ordinaries; the natural is helpless against the supernatural. Life is essentially spiritual. But what we have been taught are natural sciences and arts, which are no match for the Spirit-forces at work.

We were not created weak and helpless. But that is what we have become. Unless we go into the WORD and explore the mind of the Maker and gain vital understanding of our lives and existence, we have no chance against the challenges of this time.

These Are No Ordinary Times

Believe it or not, life on earth today is quite different from what it used to be. And that is not in terms of technology, internet or any of such things, but in terms of intensity of the interactions between the physical and spiritual realms. These interactions are producing on earth today massive effects and changes, most of which we ignorantly attribute to other causes. We have been long coming. But it seems we've finally reached a final intersection. Deciding which way we go from here is of eternal weight.

We are in a time on earth today which our Maker refers to in HIS WORD as the Ending of this age and the threshold and portal to another. Indeed our time is peculiar. Our day is challenging beyond words. We are at the turning point of history. It is not enough that each of us find our bearing in God and change the very course of our lives, but we are also saddled with the sacred duty of changing enough to become God's agents of change to our fellow men.

The eternal relevance of our lives here and now is in the influence they can and must wield for God in the earth. We have in our hands the chance of a lifetime to be salt and light to the earth and to our world in ways completely different from the normal understanding of those duties.

The Institute

The need for a new option to what we call education and learning is glaring. What we have had as means have not been able to give us the hope of a future. We need meaning to life. We need a concrete, heart-felt sense of mission and purpose here on earth. We need to clearly know that our destiny is as designed by the Creator. This is the mission of SOURCE INSTITUTE. It is the Genesis option for our Family life, for our Finances, our Health and well-being, as well as for managing our everyday life and developing ourselves in godly character and spirit attitude to living as we face the awesome calling of God upon our lives to bring this age to its close and usher in the Eternal Age where Christ becomes all in all!

Our Goal

There are certain ingredients of true and beneficial learning which secular education has thrown out of its thinking. The result is the sour taste it now gives modern society. SOURCE INSTITUTE is on a high mission. And you must feel the call to come, the call to turn. You must be a person of purpose, with a vision and passion to live out God's best for your life. The courses are not designed for normal learning. We have answered a call into God!

Our overall goal is to produce men and women whose lives centre and run on God's WORD, and whose impacts and influence on other lives and the society prepare the way for God's Kingdom on earth.

The Challenge

The challenge is great. The tasks are daunting. But then, SOURCE INSTITUTE is not just a school, it is a call! For both students and teachers, for staff and friends, it is a high call requiring high answer. There are moral questions to answer; we will face tough challenges and grapple with chronic societal ailments. We will fight the evils in ourselves and in our world. But at the end of it all, we want to be able to provide a foot-hold for our Creator's eternal purpose to take its course on earth. SOURCE INSTITUTE is an erupting force of change focused on PERSONAL DEVELOPMENT, LEADERSHIP and LIFE MANAGEMENT. You must take up the challenge to develop yourself to lead and to manage the vast resources of earth. It is your destiny responsibility!

Who Can Attend?

With its Learning facilities located in a serene and beautiful part of the ancient city of Sokoto, northern Nigeria, SOURCE INSTITUTE promises you an experience of a lifetime. The Learning atmosphere is conducive, stimulating and free from the usual tension and boredom associated with secular education. The courses are rich in content and structured to accommodate the student's other important commitments.

The timing of classes is just perfect, taking into account the various categories of student-body and their occupational, academic, and even household responsibilities outside of the INSTITUTE. In other words, virtually every segment of people has been catered for as per the opportunity to attend.

Yet the thinking mind will easily see that most of what we are fighting today as health problems are actually products of our own creation. It is common knowledge that the various arms of our technological advancements have also given us weather conditions that are strongly adverse to our health. At both body and mind levels, human environment is no longer promotive of health and well-being!

How reassuring that while medical science is struggling and failing, the Creator the Human Body and Mind has a health insurance package that meets our needs completely! Check out the topics under our **LIFE** and **HEALTH** course as listed below:

(D) HOME LIFE

The Divine Blueprint for life on Earth has the Home as its core foundation. Society runs on the 3 pillars of Government, School and Religion set-ups. These 3 are however founded upon the platform of the Home. And as goes the home so goes the society.

The Edenic Home is a sample of God's Home in heaven. He designed it to reflect the Heavenly pattern. The home offers us something which no other platform on earth offers. It is the atmosphere for the Covenant of Blessing. And that is why satan has made the Home his primary target.

It is a mystery but the secret can be cracked. Poverty is a mystery, wealth is also a mystery. If you leave them as mystery you will die poor and unfulfilled.

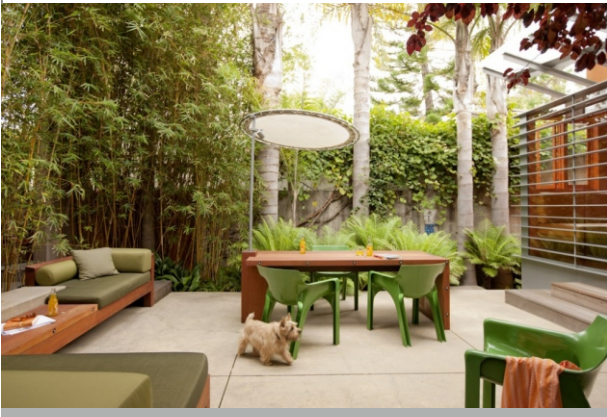

In **SECRET OF WEALTH**, the mystery of poverty and of wealth is laid open for us, so that we can walk out of poverty and come into wealth. So revealing and so refreshingly amazing: that is what you have under our **SECRET OF WEALTH** course. This is **ECONOMICS** from the Creator's perspective.

Fit in Body, broad in Mind and deep in Spirit! That is a desirable state to be. The Earth is ours to explore and manage as stewards to our Maker. The average man is too narrow and localized to be of better influence on the world. But we can expand our horizon Body, Soul and Spirit.

The courses under Home and Gardens expose the student to little bits of everything: cooking, gardening, repairs of home appliances, tips on home safety etc.

***Home economics for men and women**

***Cookery for men**

***Vegetable gardening**
